Hints For The Housewife

By Marion Cunningham
Home Economist

In spite of all the recent stories and talk about new homes and better homes—or maybe because of it—I've met a number of people who seemed really not to know what kind of house they wanted. Some, building new homes, were bogged down in styles of architecture. Others, remodeling, were confused about the number and kind of modern conveniences that could be included.

Marion Cunningham

It set me to thinking. If I were building a new home, or modernizing my present one, what are some of the fundamentals I'd try to include? Without regard to the architectural style, what are some of the basic elements I'd want in my perfect house?

I'd want the exterior gay and colorful, with sturdy, fire-resistant roofing. I'd want some sort of porch or portico or hooded space over the front door, to shelter the incoming guest.

I'd want an entrance hall small enough to preclude long visiting, yet large enough to be gracious and courteous, and opening from it, I'd want at least one guest closet—with mirror, dressing table or shelf, hooks and hangers for wraps, adequate light, perhaps a lavatory in a separate niche.

I'd want a living room longer than it is wide, with wide windows and adequate space for pieces of furniture. I'd like a large sunny bay in the dining room, where a breakfast table can be placed. And plenty of electrical outlets in this room.

I'd want my kitchen to be rectangular rather than square. I'd want a panel of glass blocks in it, to flood it with natural light.

I'd want my basement to have a high ceiling.

I'd want each bedroom to have cross ventilation, and each room opening on to a hall. I'd want two bathrooms upstairs, and a lavatory on the first floor.

And because a home is more than just a house, I'd be sure to save some of my money for an attractively landscaped setting.

Soundproof Clubs

Miami Beach night clubs must be both soundproof and air-conditioned, under a city ordinance.

Diet Changes

Since 1917 the American public has changed its diet by increasing the use of salads, malted milk, whole milk, fresh fruit, canned fruit and fresh vegetables.

Rice Producers

China and India are the world's leading rice producers, with Japan ranking third. Japan's crops are supplemented by imports of the commodity.

Better Prepare For "Seconds"!

By Frances Lee Barton

IT is not necessary to labor long, or spend excessively to furnish a dessert dish with a five-point appeal — sight, smell, taste, digestibility and nourishment.

You have whipped cream, gelatin and hot water available. A few sticks of peppermint candy may be secured easily. With these four ingredients and very little effort — you can prepare one of the most delightful little "surprise" desserts imaginable.

But you had better make plenty, for the demands for "seconds" will be numerous.

Peppermint Lime Mousse

1 package lime-flavored gelatin; 1½ cups hot water; 2 cups cream, whipped; ¾ cup crushed peppermint stick candy.

Dissolve gelatin in hot water. Chill until cold and syrupy. Fold in whipped cream and candy. Turn into freezing tray of automatic refrigerator and let stand 3 to 4 hours, or until frozen. Serve in chilled sherbet glasses. Makes 1 quart.

Alabama Homicides

Homicides are decreasing in Alabama. There were 29 less homicides in the state in 1939 than in 1938, the state health department vital statistics bureau reports.

Dog Stays On

Frank Brusewitz has retired as station agent for the Great Northern railroad here but his faithful dog, Terry, carries on. Terry reaches the station every morning at 7:30 o'clock, meets all passenger trains and then trots to the post office and bank—a routine he followed with his master for years.

Boosting Railway Business

Passenger traffic on the Eastern Bengal railway in India has shown a substantial increase since reported healing powers of the four-year-old son of a Saidpur station agent have become known. The boy is said to be able to cure sufferers by breathing on them.

New Spotlight

Having a special lens and a pre-focused 200 watt electric bulb, a new spotlight for amateur photographers is asserted to provide as much light as most 500 watt spotlights.

No Blackout

Failure to display tail lights on their baby carriages during the blackout cost four women four shillings (about 80 cents) each. They were fined in magistrate's court at Walsall, Staffordshire. The arrests were made after one of the carriages was hit by an automobile.

Withdraw Autos

Private automobiles and buses were withdrawn from use in Denmark because of severe gasoline rationing. It was estimated 60,000 vehicles were affected.

Creams For Company

By Frances Lee Barton

Do you want something out of the ordinary for your next "company" dessert? Here is a new recipe for chocolate macaroon cream that I am sure will delight them. Follow the directions carefully and the result will be a revelation.

Chocolate Macaroon Cream

2 squares unsweetened chocolate; 1¼ cups milk; ⅔ cup sugar; ⅛ teaspoon salt; 1 tablespoon granulated gelatin; ¼ cup cold water; 2 egg whites; 4 tablespoons sugar; 1 teaspoon vanilla; ¼ teaspoon almond extract; 1 cup cream, whipped; ½ cup fine dry macaroon crumbs.

Add chocolate to milk and heat over low flame, stirring constantly. When chocolate is melted, beat with rotary egg beater until blended. Add ⅔ cup sugar and salt, and bring to a boil. Cook gently 2 minutes. Remove from fire. Soak gelatin in cold water 5 minutes; add to chocolate mixture and stir until gelatin is dissolved. Strain. Chill until slightly thickened. Beat egg whites until foamy throughout; add 4 tablespoons sugar gradually, beating after each addition until sugar is blended. Then continue beating until mixture will stand in peaks. Add vanilla and almond extract. Fold into whipped cream. Then fold in chocolate mixture; add macaroons. Turn into mold. Chill until firm. Unmold. Serves 8 to 10.

For Jam Sessions

By Frances Lee Barton

JAM sessions are not as seasonable as some suppose. True, they seem to multiply on cool evenings, but icebox raids and picnic parties during the hot weather months are also to be considered.

All year 'round you will find days and nights when a jar of jam with two or three other foods are called upon to appease the appetite. So jar your jams and jellies as the various fruits and berries are in season—and you'll be prepared for any jam session that comes. Here's a good recipe for starting that emergency shelf:

Gooseberry and Strawberry Jam

4 cups (2 lbs.) prepared fruit; 7 cups (3 lbs.) sugar; ½ bottle fruit pectin.

To prepare fruit, crush thoroughly or grind about 1 pound fully ripe gooseberries and 1 quart fully ripe strawberries. Combine fruits.

Measure sugar and prepared fruit into large kettle, filling up last cup with water if necessary. Mix well and bring to a *full rolling boil* over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Skim; pour quickly. Paraffin hot jam at once. Makes about 10 glasses (6 fluid ounces each).

"Currant" Events

By Frances Lee Barton

KEEP up with your "currant events" as well as with current events. As the various members of the currant family appear on the market or ripen on your own grounds, roll out the jars, turn the fruit into jelly or jam, and later on you'll have a barrel of fun.

A combination of red currants and ripe apricots makes a very delicious jam. Here is a recipe that will take care of about eleven glasses—but when you taste this jam you will see to it that at least another batch is prepared.

Apricot and Currant Jam

4 cups (2 lbs.) prepared fruit; 7½ cups (3¾ lbs.) sugar; ½ bottle fruit pectin.

To prepare fruit, pit (do not peel) about 1½ pounds fully ripe apricots. Cut in small pieces and crush thoroughly or grind. Crush thoroughly or grind about 1 pound fully ripe red currants. Combine fruits.

Measure sugar and prepared fruit into large kettle, mix well, and bring to a *full rolling boil* over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Skim; pour quickly. Paraffin hot jam at once. Makes about 11 glasses (6 fluid ounces each).

A World's fair has been held annually at Leipzig without interruption for over 700 years, breaking all records for business longevity. American participation dates back for a century. The fair includes the newest art and industrial products from 22 of the leading industrial countries.

Women Healthier

According to medical authorities, women are healthier than men. For every man who reaches the age of 100, eight women attain that age.

Too Shy

Fred Kral, 78 years old, is "too shy and embarrassed," according to his 64-year-old bride of three hours. So, Mrs. Kral finely admits, she not only did the proposing, but also rewrapped the usual presents by presenting a list of the bridegroom at the end of the ceremony.

Book Worm and Tear

V. J. McHenry, who annually supervises the renewing of the 3,000 library books at the University of California, reports that it is always the first 20 pages of a book that suffer the greatest damage due to the efforts of students to concentrate on them. The middle and the end rarely ever have to be renewed.

Silver Lining

War has a silver lining for 84,000 who were on relief last winter in St. John's, Newfoundland. Its great newsprint and its wood-pulp and mine-prop industries have been revived with the closing of the Baltic. Iron, lead, and zinc mines are again operating, while enlistments in the navy, army and civilian forestry corps have also helped to reduce unemployment.

Garden of Roses

A rose census by Park Superintendent William Nicholas of the 20,000 rose bushes surrounding the Rose Bowl at Pasadena, Calif., revealed that there are 67 kinds of roses represented.

Testing Tires

A machine has been invented to test the durability of automobile tires by subjecting samples of their material to twice the number of impacts to which the tires would be subjected in use.

Horse Rider Guilty

It isn't always necessary to have 90 horsepower under the hood to drive in a reckless manner. A Boulder man had only a one horsepower vehicle under him when he drew such a charge. Riding a horse, he was accused of behaving so recklessly that two girls, walking in the road, were injured.

Dangerous Firewood

Mrs. L. Marais of Cyferkuil, Western Transvaal, picked up a piece of firewood while lighting her kitchen fire and found to her horror that she had seized a deadly night adder. With great presence of mind, the housewife struck it against the floor and battered it to death.

Ticket Trickery

If you can get a traffic ticket "fixed" in your town the chances are that more serious offenses are also being condoned, according to the National Consumers tax commission, whose tax reduction drive seeks additional municipal economy and efficiency.
